Brent Pottery Wheels

With electronic speed controls, permanent magnetic DC motors and all steel construction, Brent pottery wheels offer the potter smooth pedal response & maximum control. Discover why Brent is the most trusted name in wheels since 1969.

All Brent wheels include a two-piece high density polypropylene molded splash pan that simply snaps under the wheelhead and is easily removed for cleaning. Each also comes with free Amaco Plasti-Bat--an easy to clean, virtually indestructible bat you'll rely on for years to come.

Model/Description

Model B Designed for schools and studio potters, this quiet wheel develops 1/2 HP to meet the power needs of schools.

Model C This 3/4 HP wheel has a long-standing reputation for mechanical efficiency, long life and quiet, vibration free durability. With sturdy, durable aluminum foot pedal.

Model CXC A potter's favorite! This top of the line wheel is reversible for both left and right handed potters and provides heavy-duty performance, developing 1 HP.

Center Wt.	Head Size	Price
